Pressure Settings

To ensure that the coating has properly fused with the fabric, we recommend to use maximum pressure. If this paper is applied with inadequate pressure, the transfer will not wash well.

Peeling

This paper is to be peeled warm. Peeling should occur 5 seconds after pressing. Also if you have difficulties peeling the backing off the shirt, while the fabric is hot, gently tug on the sides of the shirt, the backing will "pop" right out.

Care Instructions

Wait 24 hours before washing. Machine wash using mild detergent. Do not use bleach or other aggressive cleaning agents. Cannot be dry cleaned. Wash Temperature cannot exceed 105F

Storage

Inkjet Light Classic has an indefinite shelf life when stored at room temperature. Keep away from direct heat, sunlight and humidity.
