

EasyColor™ DTV™

What if you could achieve full-color designs by printing on HTV... using nothing but your home inkjet printer? Now you can with Siser® EasyColor™ DTV™ (direct to vinyl)!

EasyColor can be fed directly through a desktop inkjet printer just like you were printing on standard copy paper— no extra equipment required. When you're finished with printing, cut your design out and mask using TTD Easy Mask, then you're ready to apply!

EasyColor is designed to work with virtually any desktop printer that uses inkjet inks. Note that you may experience mixed results when using toner (laser) printers.

EasyColor is CPSIA certified.
